

Log Abundance by Year

Tiffany Winter

11/26/2021

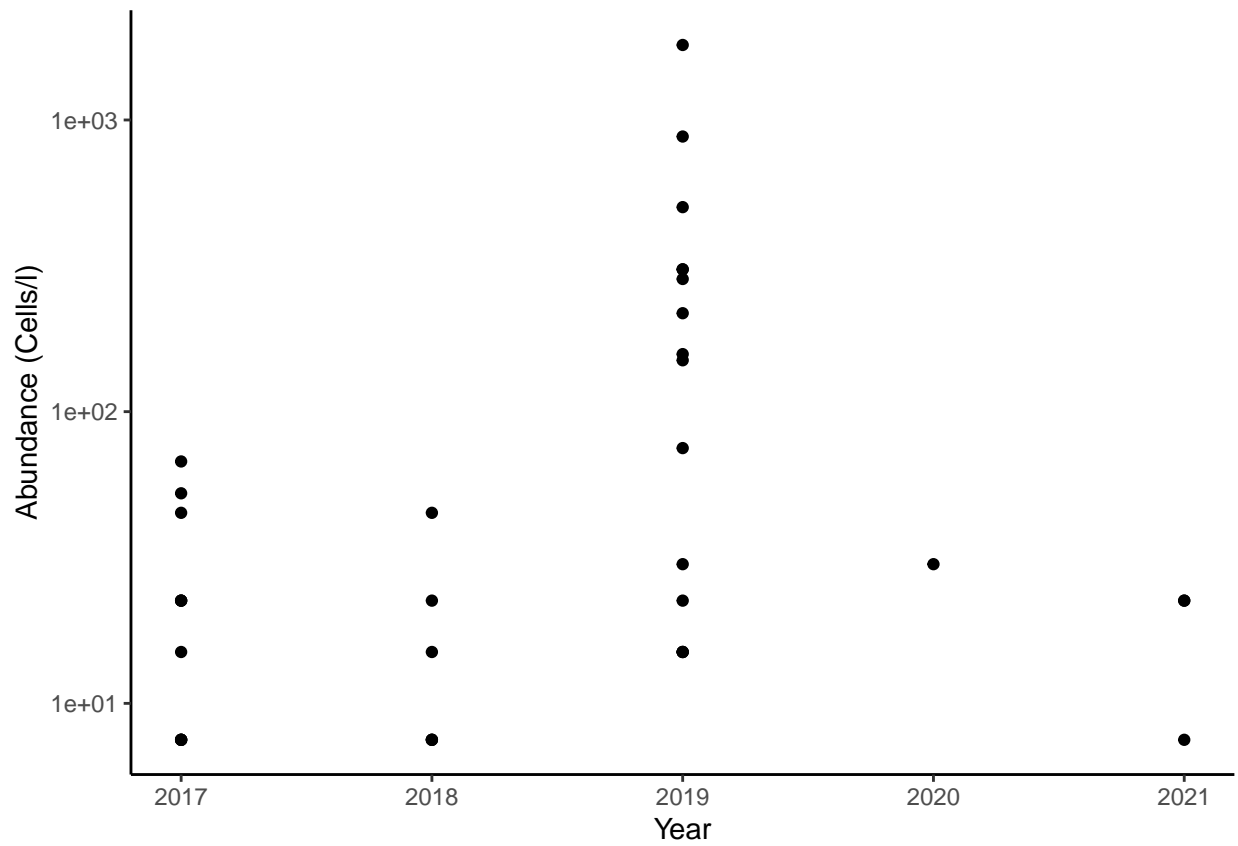

Figure 1: The log of *Alexandrium* abundance (cells/l) by year at the HHHR2 (Hampton, NH) sampling site

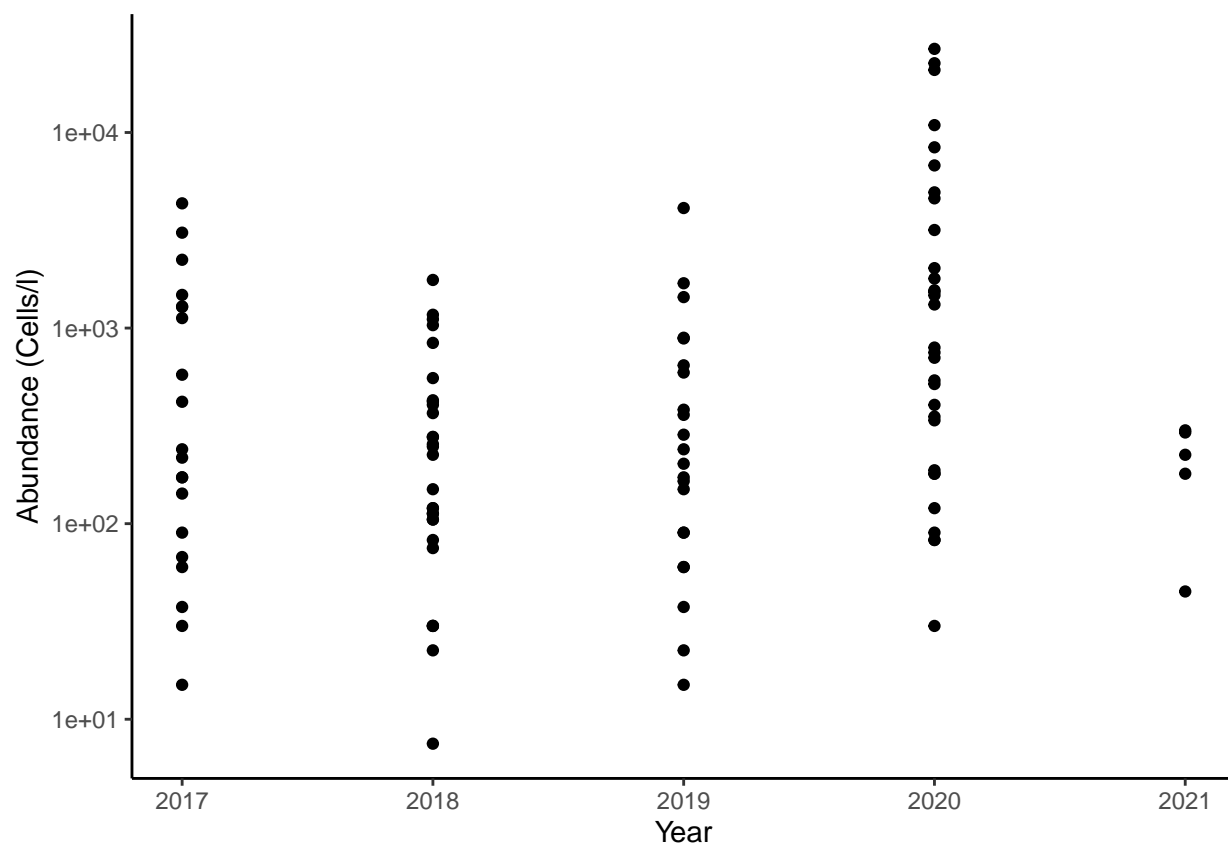

Figure 2: The log of large sized ($\geq 3\mu\text{m}$) *Pseudo-nitzschia* abundance (cells/l) by year at the HHR2 (Hampton, NH) sampling site

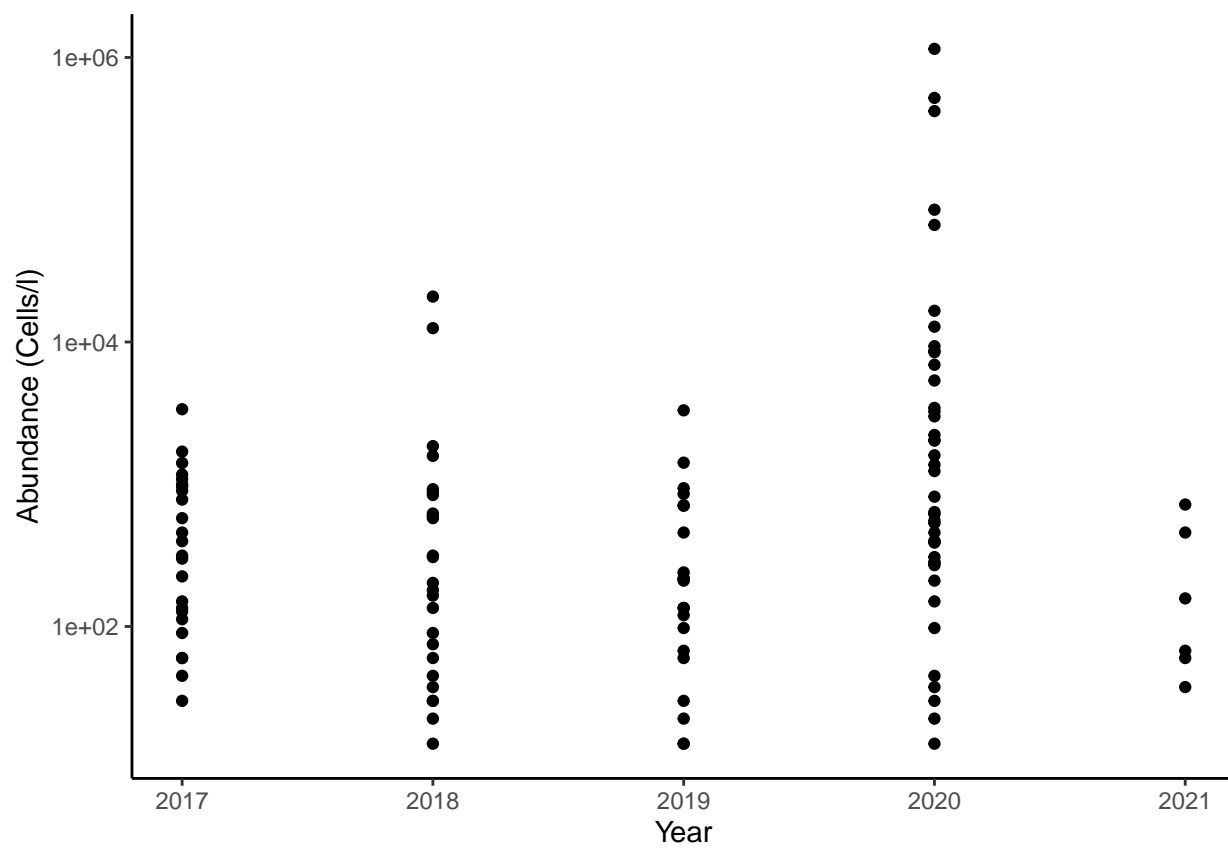

Figure 3: The log of small sized ($< 3\mu\text{m}$) *Pseudo-nitzschia* abundance (cells/l) by year at the HHHR2 (Hampton, NH) sampling site

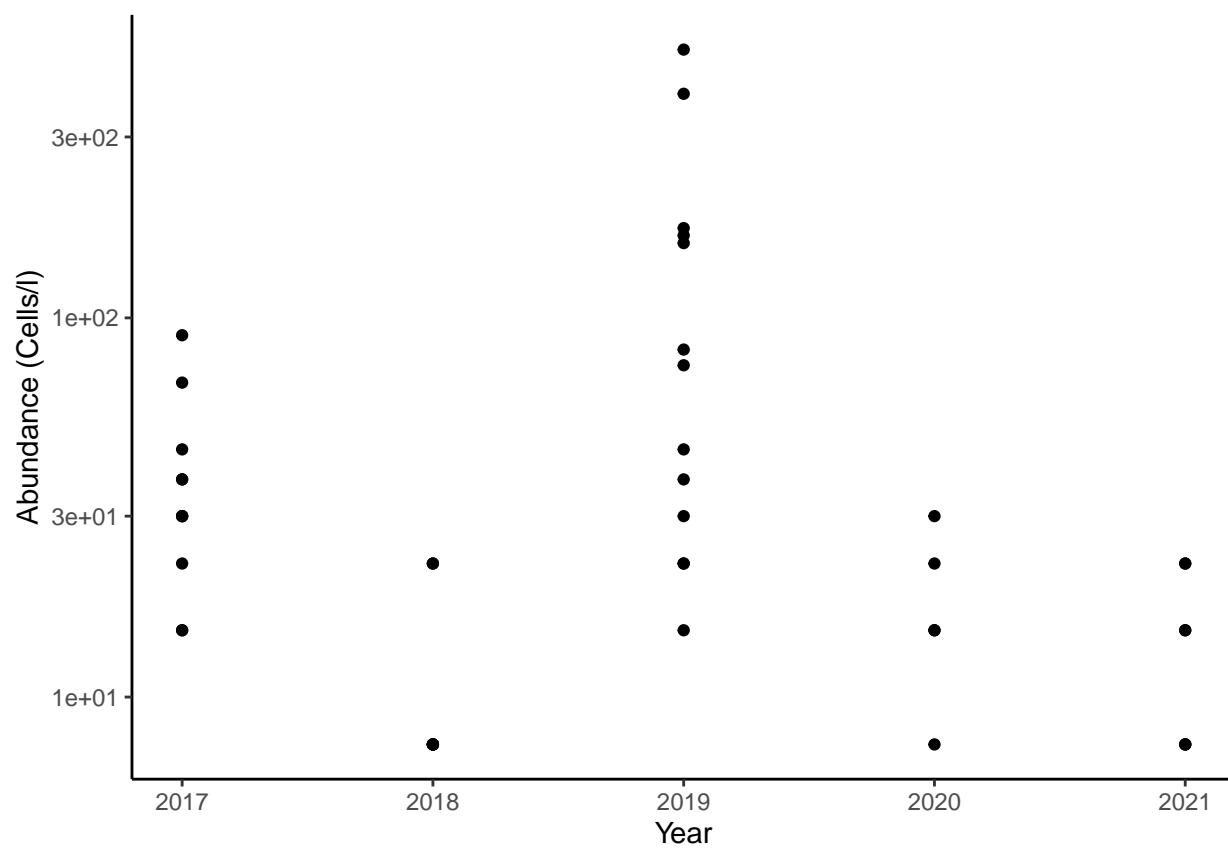

Figure 4: The log of *Alexandrium* abundance (cells/l) by year at the UNH Pier (CML, Newington, NH) sampling site

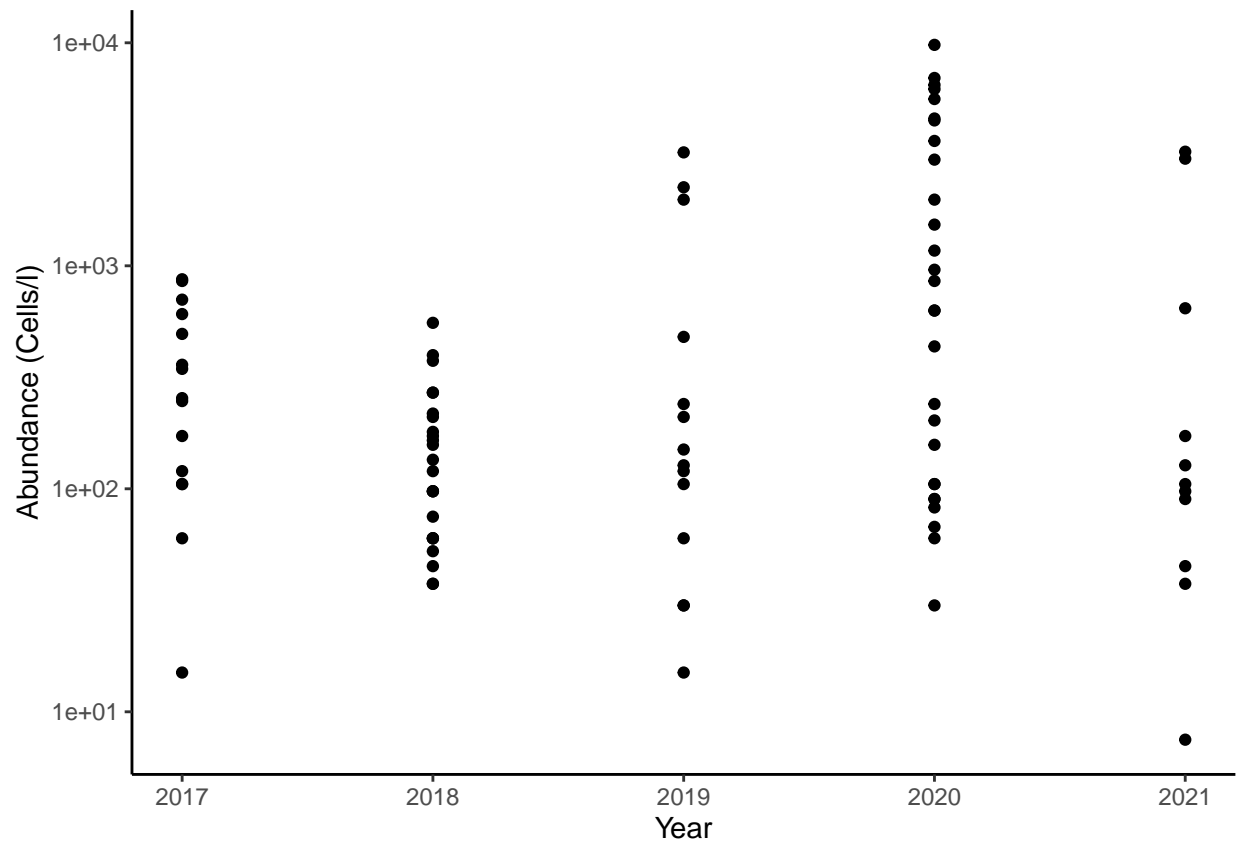

Figure 5: The log of large sized ($\geq 3\mu\text{m}$) *Pseudo-nitzschia* abundance (cells/l) by year at the UNH Pier (CML, Newington, NH) sampling site

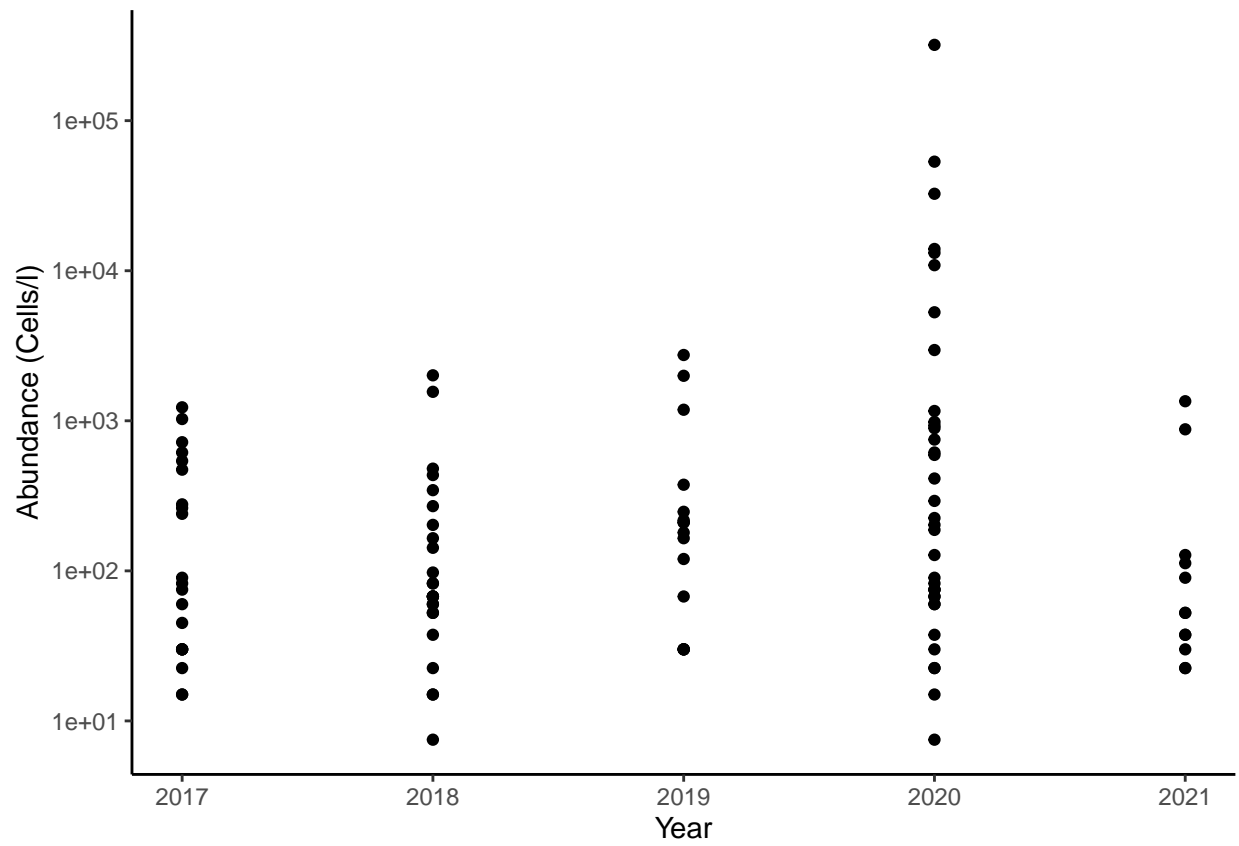

Figure 6: The log of small sized ($< 3\mu\text{m}$) *Pseudo-nitzschia* abundance (cells/l) by year at the UNH Pier (CML, Newington, NH) sampling site
